02 October 2013

To all at UNISON – Edinburgh Napier University Branch,

Thank you very much for your kind gift of £500.00 towards Prostate Cancer UK. We really appreciate your support.

Although prostate cancer and prostate diseases are huge issues affecting a huge proportion of the population, the available tests, treatments and support are seriously inadequate.

We believe that men deserve better

We pledge simply to make life better for men with prostate cancer and other prostate diseases.

We provide the support men need now, through our helpline, information services and our community support services. We want to find answers for the future and are investing £25m over three years in world-class research. And we campaign for change, aiming to give prostate cancer the prominence it needs.

In Scotland we are currently funding seven research projects at leading Scottish universities. We have recently recruited our first dedicated prostate cancer nurse and are expanding the number of support groups we run across Scotland. All the work we do benefits men facing prostate cancer.

Thank you for joining us in the fight against prostate cancer. Without your generosity, and that of others like you, we would not be able to change the future for men with prostate cancer.

If you have any questions, please don't hesitate to contact me on 0141 314 0050 or at fiona.dunlop@prostatecanceruk.org.

Yours sincerely,
