

Mobile Device Management - Intune DEP Enrolment for iOS devices

Intune is the technology used for University's Mobile Device Management (MDM) service for staff members. [Find out more...](#)

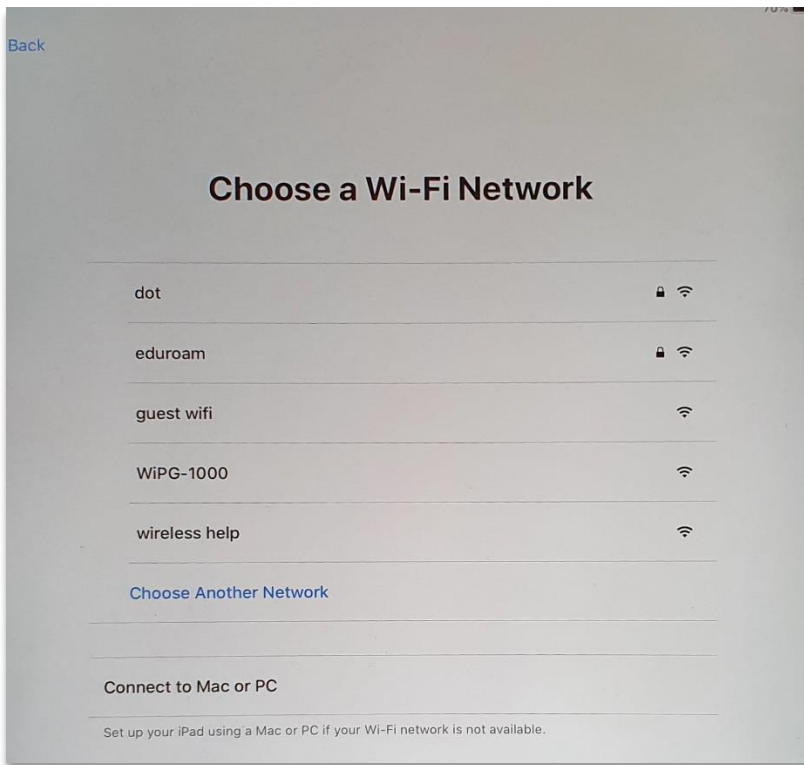

Apple "Device Enrolment Program (DEP)" devices are designed to be enrolled into Intune straight out of the box. The device cannot be setup or used without being first enrolled into an MDM system, and DEP cannot be removed or wiped from the device by the user.

This document explains the installation procedure to enrol Apple iPads and iPhones devices that have been set up for Apple DEP into Intune MDM. This is usually mostly will be for new devices bought from vendors such as Academia, XMA, etc. Your experience may differ slightly, but the principal procedure of this guide will be comparable.

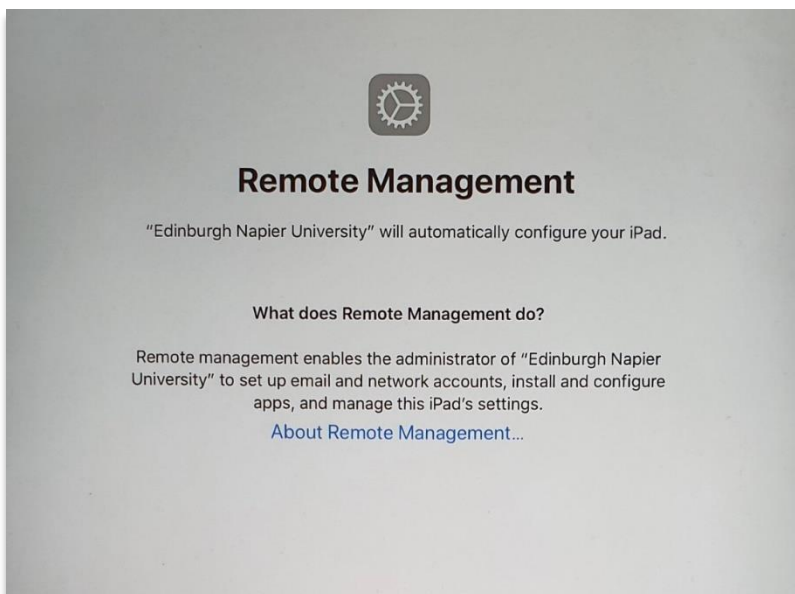

- Power on the iOS device, and select your **Language & Country**.
- In the Quick Start page, select install the **Set Up Manually**.

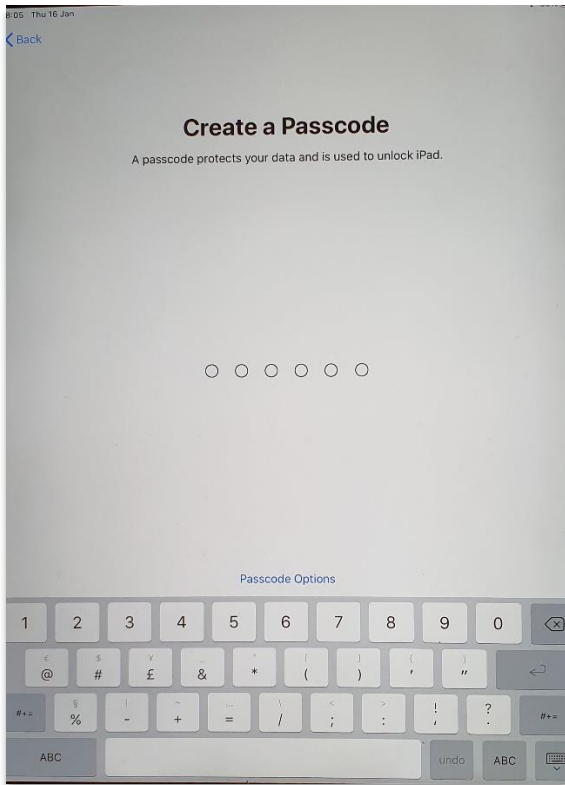

- It is necessary to **Choose a Wi-Fi Network**. Select and sign into **eduroam** (if available).

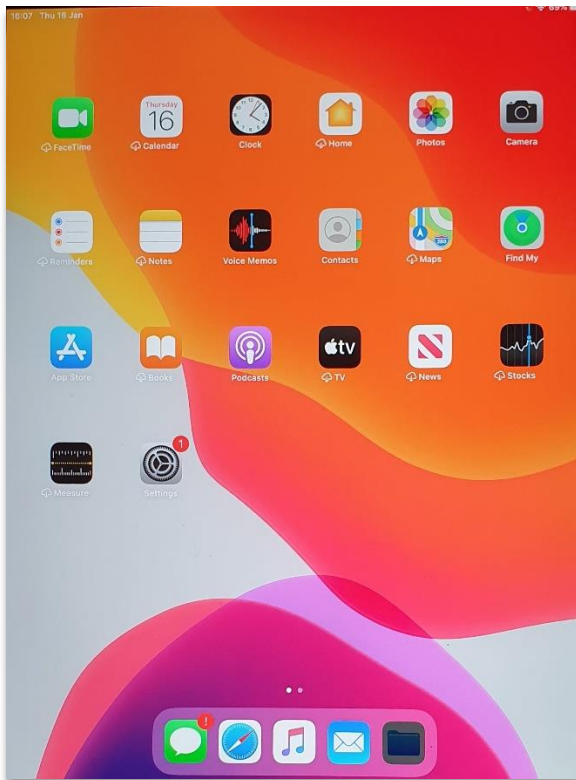

- Continue on to the **Remote Management** page, and click your **Next**.

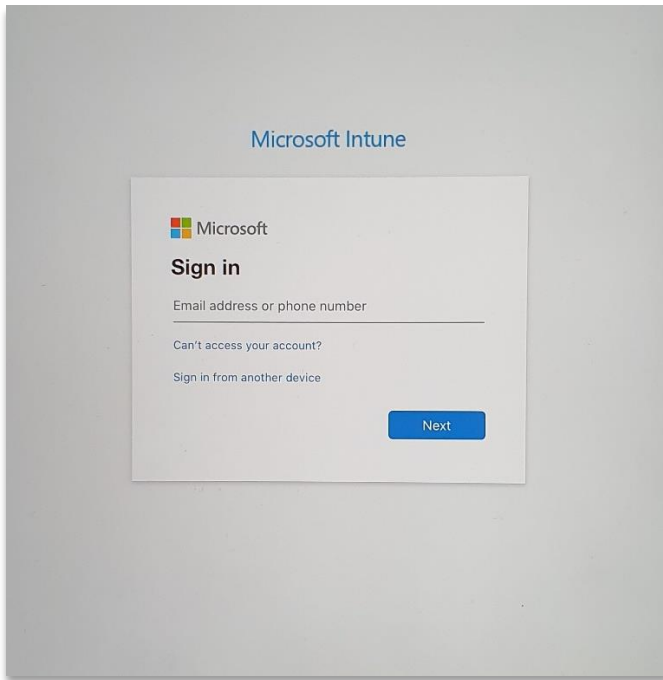

- Continue, and **Create a Passcode** when prompted.

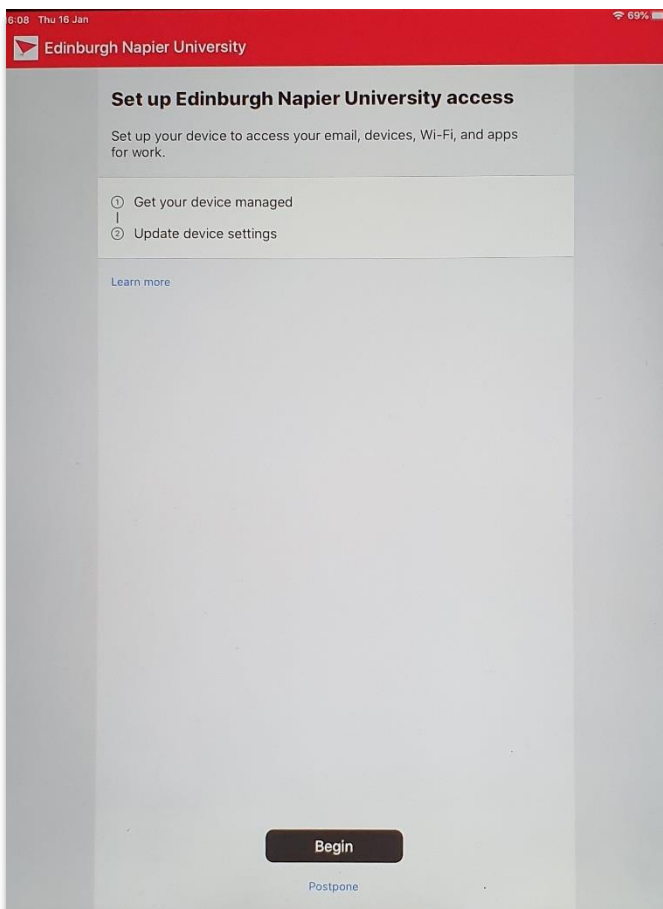

- **Continue**, and finish the **Set-up** until you reach the **Home** page.
- It is **important to wait** whilst the **Company Portal** automatically downloads and starts.

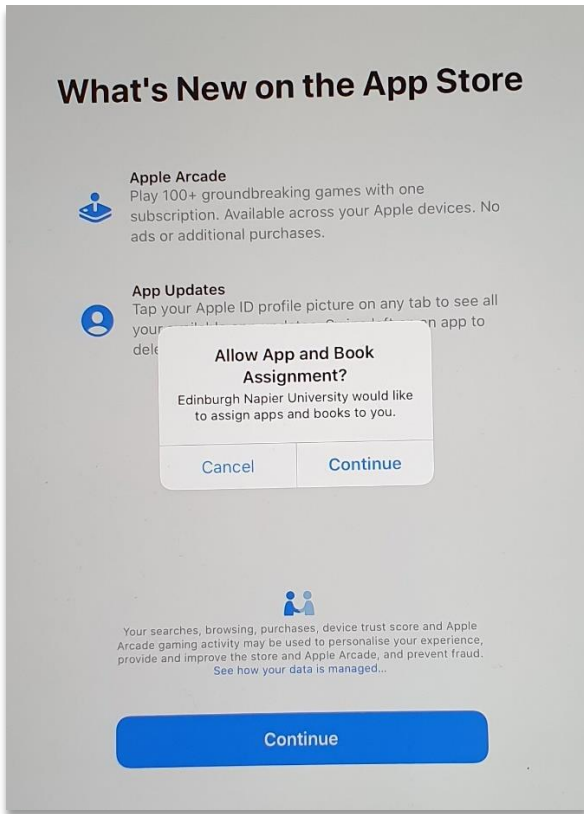

- After a few moments, the **Intune Company Portal** app will start and prompts you to sign in with your **Edinburgh Napier login credentials**.

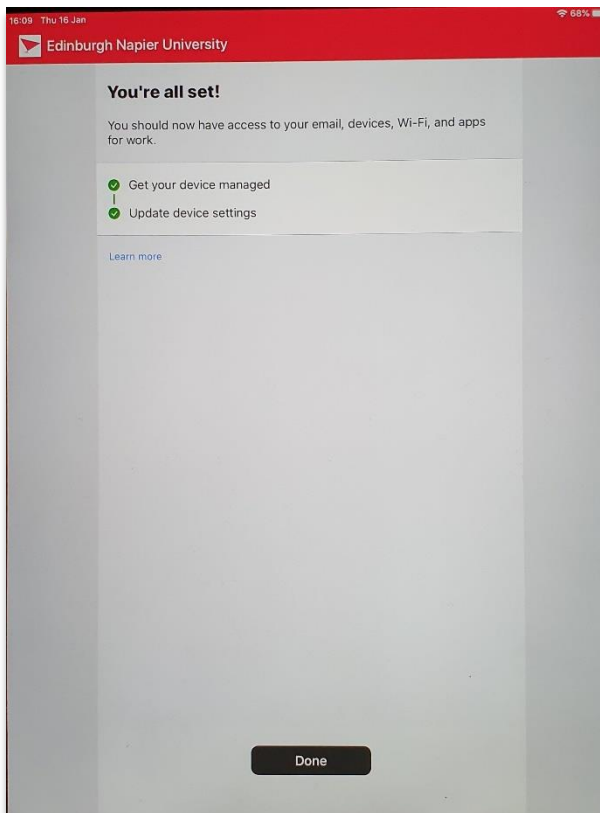

- The Intune Company Portal will set up your device. Select **Begin**, then **Continue**.

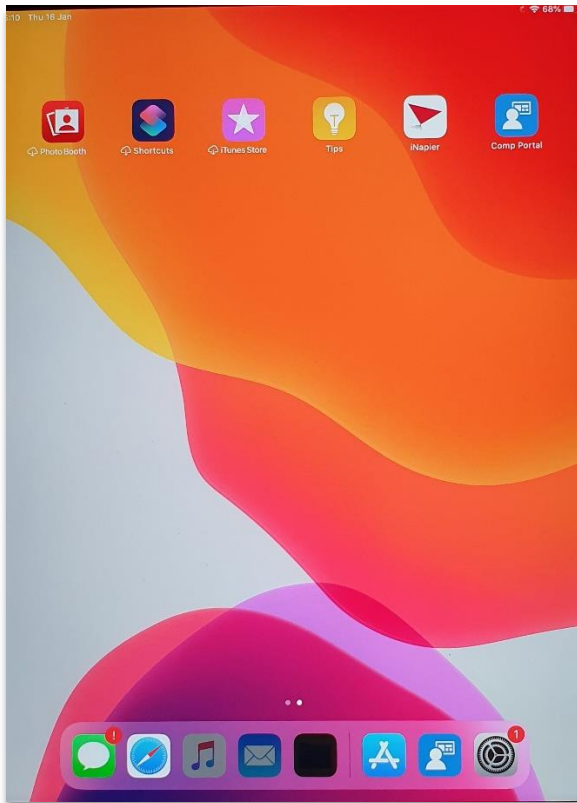

- You will be prompted to **Allow App Assignments** from Edinburgh Napier. Select **Continue**.

- Once the setup is complete, select **Done** and **You're all set!**

- You can find the **Intune Company Portal** app on the **Home** page.

- **Open the Intune Company Portal app to see Edinburgh Napier Apps and further information.**
