

Threshold judgement

New Programme Approval

Addition of new prompt questions and signposting to ENhance Framework to aid programme design.

From January 2023, new fields will be available as part of Curriculum Management to collect specific information to demonstrate how ENhance has been applied in the design.

Guidance will be provided to approval panels to support the new requirement to make threshold decisions.

Recommendations and commendations relating to ENhance to be expected in the approval report. All programme teams will be expected to produce an action/enhancement plan following successful approval

Threshold self-assessment

Programme Annual Monitoring

Additional prompt questions will be added to a new online annual monitoring form to encourage reflection and demonstration of engagement in at least one theme including self-assessment against threshold

Programme teams will be expected to develop and maintain a programme level enhancement plan and review it at least annually as part of annual review.

Annual monitoring and review process as it will continue to be overseen within the Schools

Data provided in the ENhance section will be made available to DLTE to inform ENhance events/training/support

Threshold judgement

NEW
Mid-Point (3 years in ILR cycle)

An opportunity for programmes to be considered against ENhance threshold within the ILR cycle.

No new documentation required – but an expectation that the programme documentation from Curriculum Management and the annual monitoring reports and enhancement plans for previous 2/3 years will be made available.

A dialogue led by DLTE (AP) will take place with the programme team(s) to discuss engagement/progress with ENhance – to share good practice and challenge and confirm achievement against threshold, if applicable. This also offers an opportunity to bring programme teams from different Schools together

Threshold judgement

ILR

Addition of prompt questions and additional guidance as needed into the SER template and to encourage the evidence base to demonstrate claims made against the ENhance Framework

Evidence will continue to be gathered during the meetings with staff, students and other stakeholders

Guidance will be provided to panel members regarding threshold decisions

Recommendations relating to ENhance to be expected in the report – requiring the production/updating of an action/enhancement plan.

Threshold judgement

ILR Follow-Up

An opportunity to review progress made against the action/enhancement plan

Opportunity to review/update threshold decisions
