MSc Blended and Online Education
Postgraduate Certificate | Postgraduate Diploma | Master of Science

- Want to upgrade your skills in digital education?
- Want to apply learning in your current role immediately?
- Want to join a community who are passionate and thoughtful about the use of technology for learning and teaching?

dlte@napier.ac.uk
The MSc BOE is designed for education professionals seeking to enhance their knowledge, understanding and skills in the area of learning and teaching with technology.

What it’s about...
It is a part-time, fully online programme that provides participants with practical opportunities to develop, implement and critically evaluate the use of technology for open and inclusive learning and teaching. It will give you:

- An international perspective on current issues in blended and online education
- A personalised and contemporary student experience
- The skills and confidence to make informed choices when using digital technologies for teaching and learning

Explore hands-on what you can do with current and emerging technologies for your teaching and learning:

- Study within a highly supportive online community
- Collaborate across a range of online spaces and tools
- Draw from your own professional working environment
- Use evidence to inform your practice in education
- Develop as a digital scholar
- Learn alongside your peers and tutors

Postgraduate Certificate keystone modules:

- Introduction to blended and online education
- Supporting the blended and online student experience
- Curriculum design and development for blended and online learning

Postgraduate Diploma*

- Introduction to coding and software
- Academic skills and scholarship in digital education (2 x 10-credit modules)
- Researching digital education and being a digital scholar (2 x 10-credit modules)

MSc

- Dissertation - Research in Blended and Online Education

*The PgDip modules are subject to school approval
