The Executive continues to monitor the position closely and regularly, taking actions as appropriate to control costs.

5.2 There was a discussion regarding staff costs whereby it was noted that whilst costs remain broadly within benchmark, they are higher than is desirable or sustainable for the University. The recent Voluntary Severance Scheme had reduced costs but further measures may be required given the challenging economic and financial environment.

5.3 In response to a query regarding SFC claw-back of fees, the Principal outlined the difficulty the sector faces in managing intake populations during a period of unprecedented national demand. It was however outlined that the University has undertaken detailed modelling, set internal student targets, put in place enhanced controls and is monitoring the situation closely.

5.4 Thereafter, Court noted the review of the current financial position.

6. REVIEW OF THEMES ARISING FROM THE COURT/PEG RESIDENTIAL CONFERENCE

6.1 The Principal introduced the paper which gave a brief review of the recent Court/PEG Residential Conference. The Principal noted that following the residential the Executive are taking forward a number of new initiatives,
aligned to delivering the University Strategy, such as: considering options for private investment; reviewing emerging legislation in India and its potential impact on establishing a physical presence there, as well as considering the possibilities in other international markets; and evaluating the options of developing the teaching of specific courses for international students in London. Furthermore it was noted that in light of public sector funding forecasts the University is continuing to undertake detailed reviews of the cost-effectiveness of activities.

6.2 In the discussion that followed a number of members commented favourably on the Conference and noted it had been successful in achieving its objectives, whilst also affirming the appropriateness of the direction in which the University is moving. Two minor points were raised that may enhance the conference organisation next year and these were noted.

6.3 Drawing on an observation made at the conference it was suggested that further investment may be required in order to enhance the University’s website. It was noted that work to enhance the website is continually underway, and confirmed that this point would be considered further in the context of planning and budgeting.

6.4 Thereafter, Court noted the report on the residential conference.

8.1 The Principal introduced the paper which provided a report to Court on significant developments affecting the University that were not covered elsewhere on the agenda. The Principal highlighted that the extent of funding cuts for Universities in England is now becoming clear and that the annual funding letter from the SFC would be received by the University shortly. Whilst it is anticipated funding will be relatively protected for the forthcoming year, it was indicated future funding, from April 2011 onwards, would undoubtedly be more challenging.

8.2 The Principal reported that she would be visiting Hong Kong shortly to attend an additional graduation ceremony and to support fundraising activities. It was noted that she would also meet with partners for initial discussions regarding the opportunity of establishing a physical presence in Hong Kong, following recent changes in legislation that make this now possible. 10.2 In discussion it was noted that the decision of Stevenson College not to proceed with the second phase of the proposed joint sports facility will have no detrimental impact upon Edinburgh Napier’s students. It was further reported that discussions with the College regarding the so-called “1986 agreement”, which established mutual rights and obligations at Sighthill, were reaching a satisfactory conclusion and should result in the termination of the existing agreement in favour of a number of specific legal commitments, supportive of the excellent relationship that is already in place.

10.3 Thereafter, Court noted the Sighthill Project update.

11. GOVERNANCE REVIEW 2009/10 UPDATE UC(09/10)38

A comparison of responses to an online survey had demonstrated that governance arrangements at Edinburgh Napier are aligned well with the rest of the UK sector, with no significant gaps being identified.
11.2 It was reported that a number of issues had been raised during the Review and these are now being considered in detail. A final report will be presented to the June meeting of Court. Thereafter, Court noted the interim report.
