7. **ANNUAL REVIEW OF STRATEGY AND ACADEMIC KEY PERFORMANCE INDICATORS**

7.1. Court received the paper which presented the agreed set of University Key Performance Indicators (KPIs), which are used to monitor progress towards the University Strategy 2020. The indicators were presented with indicative trajectories for each of the measures to 2020 using 2013/14 as a baseline. It was noted that the changing economic and political environment served to reinforce the importance of the Strategy and that, whilst good progress had been made, there remained many challenges for which there were plans in place to address.

7.2. Discussion followed during which activity to develop and grow the University’s online provision was noted. It was queried whether it might be appropriate to review the KPI targets given changes in the environment since they were approved, but was felt that the current targets were broadly appropriate and that it was of increasing importance that the University deliver against them to ensure competitiveness. It was recognised, however, that it may be appropriate to keep the target for total income under review.

7.3. Thereafter, Court noted the report.
