

## Health & Safety Policy

### Summary – Restricted Areas

---

Access to rooms or areas accommodating plant, mains electrical switchgear, lift machinery, heating and ventilation equipment, central heating boilers, confined spaces and certain other areas such as containment from asbestos or other hazardous atmospheres, areas with radiation sources etc. is restricted. Only authorised members of staff and contractors are permitted to enter such rooms.

Any contracted work in these areas must be controlled under permits to work/access and these will be completed by the School, Service or Property and Facilities dependent on who controls the area or risk associated with it.
