

Useful Information On schools and services

Our Schools

The Business School

We are a modern, global and dynamic business school home to students, staff and researchers inspired by the world around them to provide creative, sustainable solutions to economic challenges and the needs of society.

School of Applied Sciences

From career guidance to sports performance, biomedical science to ecotourism, research into human life, human behaviour and our understanding of the environment is at the centre of the School of Applied Sciences.

School of Arts & Creative Industries

Our School of Arts & Creative Industries offers a range of degrees to create a vibrant, international and creative community. Our modern facilities and strong links with industry combine to produce industry-ready, award-winning graduates.

School of Computing

The School of Computing will equip our students for the future in a fast-changing and fascinating sector. From networking to cybercrime, sound design to web development, we offer innovative, accredited courses taught by industry experts in labs that feature cutting-edge kit.

School of Engineering & the Built Environment

The School of Engineering & the Built Environment gives you the skills needed to innovate, create, respond to and provide solutions for a technically-demanding society. We have a broad range of courses that have been designed with employment in mind.

School of Health & Social Care

The UK's envied healthcare model, Scotland's strong reputation for health training and our research-active academics makes Edinburgh Napier the ideal place to study, no matter where you are based.

Our Service Departments

[The Academic Skills team](#)

The Academic Skills team consists of a small group of advisers dedicated to helping students understand and adjust to the particular expectations associated with university level work. We advise undergraduates, postgraduates and staff members studying at Edinburgh Napier on a range of skills, including planning and structuring essays, paraphrasing and critiquing sources of information, preparing for exams, and tackling the various parts of dissertations. The team works with students and academics in order that the former are best equipped to succeed in their chosen discipline.

[Bright Red Triangle](#)

Bright Red Triangle (BRT) is Edinburgh Napier University's hub for innovation and enterprise practice. The core aim for BRT is to develop and deliver meaningful experiences and learning opportunities to support Edinburgh Napier graduates to become FIT (Future Investable Talent).

[Department of Learning and Teaching Enhancement](#)

The Department of Learning and Teaching Enhancement (DLTE) provide a 'hub' for university-wide projects and activities where both staff and students work collaboratively to share best practice and develop new approaches, making Edinburgh Napier a truly excellent place for learning and teaching.

[Development & External Relations](#)

Edinburgh Napier University's Development & External Relations works with a wide range of partners to assist the development of the University, its students, alumni and staff.

[Finance](#)

We aim to provide an efficient proactive, knowledgeable, customer focused service to our customers, and trust you find the information contained within these pages helpful.

[Governance & Compliance](#)

Governance & Compliance comprises the Governance Services, Health & Safety and Procurement teams which provide corporate and information governance, health & safety and procurement support services to the University, its governing body and other key stakeholders to support delivery of the strategy and meet statutory obligations.

[Human Resources & Development](#)

At Edinburgh Napier University we are committed to providing a stimulating, rewarding and supportive work environment so that we remain a successful University and an employer of choice. We hope that all members of staff gain something useful from this site. The Human Resources and Development team are committed to the highest standards of service

[Information Services](#)

We are committed to delivering and supporting high quality **IT** and **Library** systems and services, accessible anytime, anywhere to enable you to achieve your learning, teaching, research or business-related objectives.

[International Operations and Student Recruitment](#)

The University's International Operations and Student Recruitment Directorate supports the delivery of the wider University 2020 and Internationalisation Strategies. Our International Operations functions seek to grow the University's international profile through increasing the number of international students studying in Edinburgh, online and through our programmes delivered overseas (TNE).

We lead activity which will enable the University to meet and (where appropriate) exceed institutional targets for student recruitment through the development of innovative and effective administration, recruitment and marketing strategies, underpinned by evidence and best practice. The directorate is also responsible for the delivery of professional, fair and transparent admissions, visa and immigration and international support processes, as well as the delivery of the University's English as a Foreign Language Provision.

[Marketing & Communications](#)

The Marketing & Communications department, based at the Sighthill Campus, raises awareness of University services, projects and news with a range of stakeholders, including prospective and current students.

[Property & Facilities](#)

Property & Facilities Team deliver a first class service to over 1,500 staff and nearly 20,000 students. Their focus is on managing the University's key facilities, including estates and buildings, energy and sustainability, security, cleaning, logistics, print room, sports centre, catering services, conference management and student accommodation.

[Research & Innovation Office](#)

The Research and Innovation Office (RIO) supports research activity across the University to achieve the aims of our Strategy 2020. RIO has a dedicated team assisting academics and research students across the University.

[School Support Service](#)

Our purpose is to provide a service which supports our Schools to deliver the key objectives of our Strategy. The Service operates as a single unified team to deliver excellent, consistent and effective local support services across all schools

[Strategic change](#)

The Strategy Hub supports the development of University wide strategy and leads on the delivery of the change portfolio of projects and programmes in support of our Strategy 2020 ambitions. Our aim is to provide optimal coordination and alignment of change with strategy, and to ensure that change is successfully delivered. Our ambition is to continually enhance our approach, and to add real value to the work of colleagues across the organisation, and to the University.

[Student Futures](#)

Provide a comprehensive portfolio of activities designed to enhance the personal and professional development and employability potential of our students in order to enhance their learning and life outcomes, and their employment prospects. We offer a range of activities designed to improve the retention, success and progression of our students.

[Student Wellbeing & Inclusion](#)

We recognise that university life can be an exciting step for many students but it can also present some challenges. Student & Academic Services aim to provide students with positive support, information and advice on key issues that can affect a student's health and wellbeing at university.

[Widening Participation](#)

Edinburgh Napier University regularly exceeds its benchmark on widening access measures, and its student profile attests to the large numbers of students who can be regarded as coming from under-represented backgrounds. The Widening Access team works closely with the University's Schools and external partners to promote the success of under-represented groups who may have experienced barriers to entering higher education for social, cultural or economic reasons
