

Ebook functionality: Safari

User guide	https://staff.napier.ac.uk/services/library/Documents/ElectronicResources/Safari_ebooks.pdf
How do I get access?	When you click on the Safari ebook/ebook website links in LibrarySearch or in Moodle, you will get temporary instant access if you use your university email address. In order to get longer term access, you must validate the email that Safari/O'Reilly send to your university email account, and follow their instructions on how to set up an account (please use a NEW password, i.e. not the one you use to log into student pcs). If you don't set up an account, you will not be able to get access once your temporary access expires. If this happens, please contact Safari support and ask them to reset your account: support@oreilly.com
Mobile	Great experience.
Full book download	Download the O'Reilly app for Apple and Android devices from the App Store or Google Play. You'll be able to download unlimited books and videos for online and offline use, and your personalised list will automatically sync on all of your devices.
Can I print/save as PDF?	Use print function in your browser to print sections or to save as PDF.
Password system	Set up your own account using your university email account and a NEW password.
