

Values and Behaviours

Edinburgh Napier University Values

At Edinburgh Napier University,
people are at the heart of all that we do.

Those people are our students, our colleagues and our external partners. There are key principles that drive all that we do with whomever we are working.

These are:

- We will be recognised as a University which is **professional, ambitious, innovative** and **inclusive**
- In dealing with others, we will act with **respect** and **integrity**
- We will create an environment in which everyone involved with the university feels **proud, confident, challenged** and **supported**

Professional behaviours that support our values

Excellence results not just from what people do but also how they do it. The behaviours listed below distinguish effective performance that underpins our values. The behaviours in the framework have been created by considering input and feedback from Edinburgh Napier University staff. The aim is that these behaviours are consistently demonstrated in our teaching, research, service and commercial practices.

It does not assume that these are the only effective behaviours linked to our values.

This document is for use by all staff.

The intention is that you can use the framework to

- identify the behaviours that are relevant to your job
- self-assess against the relevant behaviours
- develop behaviours and improve performance
- identify ways to build upon and maximise existing strengths
- seek structured feedback from others
- provide structured feedback to colleagues

Each behavioural group has been divided into three aspects:
