# Agresso (Remote)

Access Requirements

Agresso Account:

You will need a live Agresso account to access Agresso (Remote). Details on requesting access can be found on the [Intranet](#).

VMWare Horizon Client:

Access to Agresso Vision Remote is through a piece of software called VMware Horizon Client. If you don't have this installed on your managed laptop, you can find the installation file now through the Software Centre on your laptop. Search for and open **Software Centre,** then select **Applications**.

- Click on **VMware Horizon Client**

- Click Install

VMware Horizon Client

Install

Status: Available
Version: 8.3.0
Date published: Not specified

Restart required: No
Download size: 299 MB
Estimated time: 5 minutes
Total components: 1
Date Modified: 08/09/2021

Accessing Agresso (Remote)

- Once VMware Horizon Client has been installed on your computer, you should see the following icon on your desktop. Open **VMware Horizon Client**

- Click the **desktop.napier.ac.uk** icon

- Enter your Edinburgh Napier **Username** and **Password** and click **Login**

- You'll then be asked if you wish to create a desktop shortcut to your Remote Applications, providing more familiar and quicker access to Agresso the next time you need to use it. Select **Yes**.

- Click on **Agresso (Remote)** to open Agresso

NB If Agresso (Remote) is not available, there are a couple of things to check. Initially please ensure that you have an Agresso account and request access if needed.

If you have Agresso access but no option to access Agresso (Remote), please contact the IS Service Desk.

VMware on a Personal Device

You can also access Agresso (Remote) on any device through the Virtual Desktop Service (VDS). The VDS can be accessed online at https://desktop.napier.ac.uk and further information can be found on the Virtual Desktop intranet page.

- Open the above webpage and select **VMware Horizon HTML Access**

VMware Horizon

You can connect to your desktop and applications by using the VMware Horizon Client or through the browser.

The VMware Horizon Client offers better performance and features.

Launch Native Client

○ Check here to skip this screen and always use Native Client.

VMware Horizon HTML Access

○ Check here to skip this screen and always use HTML Access.

Click Here to Download VMware Horizon Client

- Enter your Edinburgh Napier Username and Password and click **Login**

The next screen will allow you to access Agresso (Remote) along with an option to access a virtual Staff Desktop.
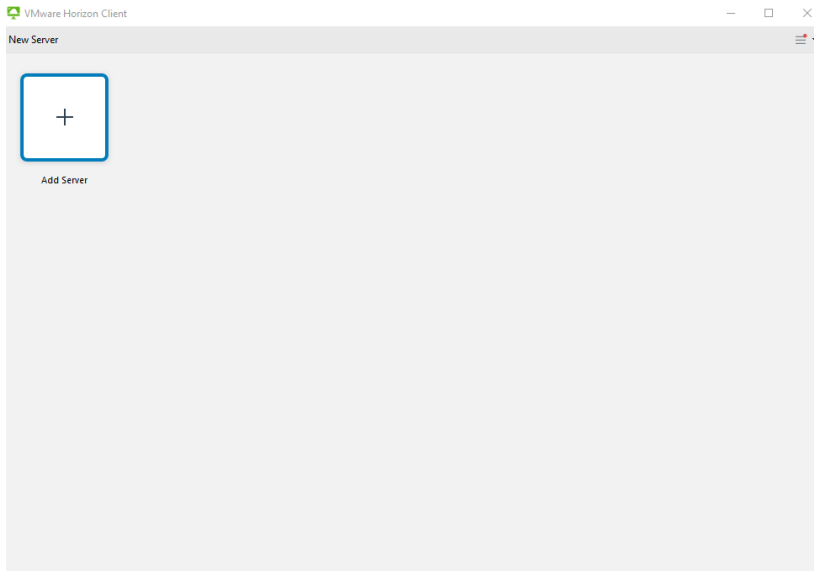

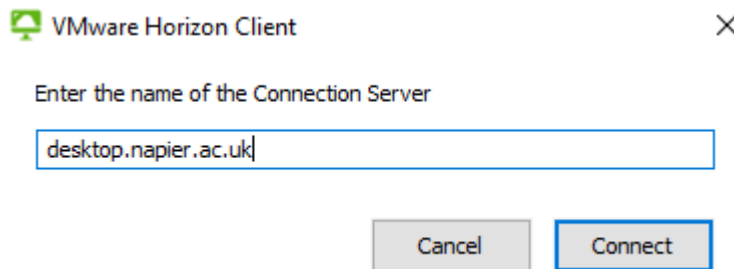

Installing VMware on a Personal Device

If you wish to install VMware Horizon Client on your own device, you can do this by selecting Launch Native Client and follow the onscreen instructions.

VMware Horizon

You can connect to your desktop and applications by using the VMware Horizon Client or through the browser.

The VMware Horizon Client offers better performance and features.

Launch Native Client

○ Check here to skip this screen and always use Native Client.

VMware Horizon HTML Access

○ Check here to skip this screen and always use HTML Access.

Click Here to Download VMware Horizon Client

- When prompted, please click A**dd Server**

- Enter **desktop.napier.ac.uk** and then **Connect**

Once installed please follow the instruction above for **Accessing Agresso (Remote)**
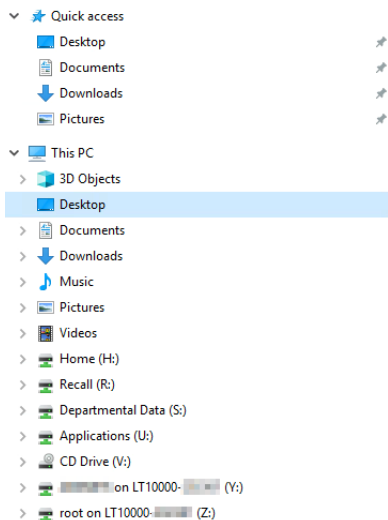

Agresso (REMOTE)

Once you have completed the initial setup above, you are then taken direct into Agresso. If you run into any issues at this point, please contact IS Service Desk.
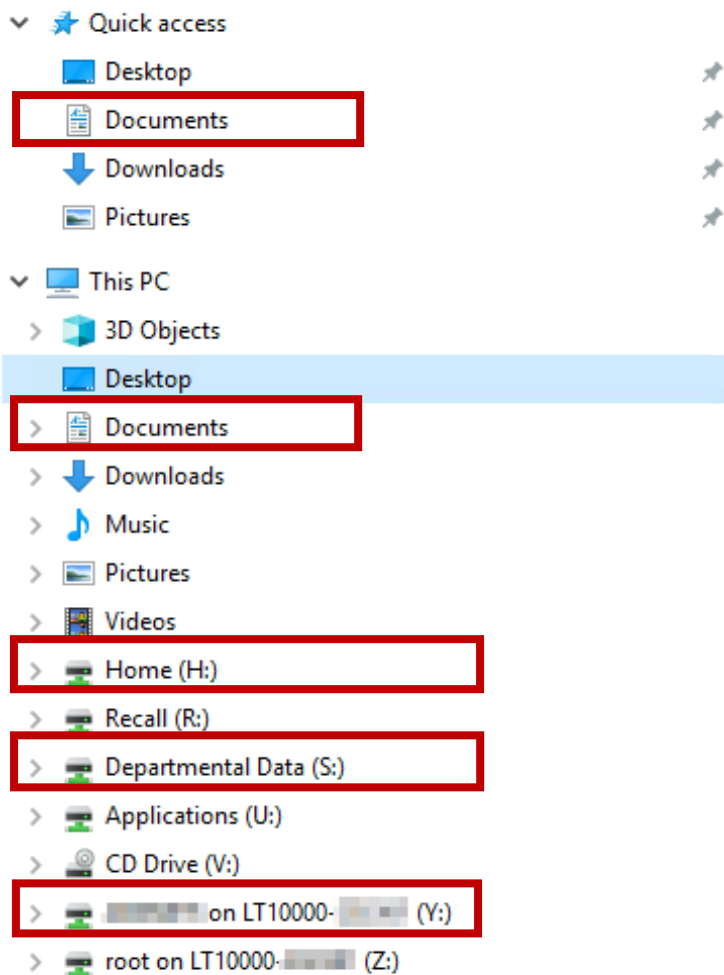

TOP TIPS

- You can open multiple versions of the client by clicking on the Agresso Remote icon in VMware Horizon Client
- If you have created a shortcut during the setup above, you will be able to quickly access Agresso (Remote) from the desktop.
- Importing and Exporting. If you have access to Import or Export data, you will notice a slight difference to the folder options.

As you are connected to a server on the university network, you will need to be mindful of where you are storing or grabbing your file from. The options above are illustrative of the account used for the screen shots, but you will see a similar structure.

If a folder doesn't open for you double check you are using one of the folders that are available to you:

Selecting your staff number and PC name (Y:) will open the folder structure on your own device.

NB Please ensure you adhere to Edinburgh Napier's Data Storage guidance, which can be found **on the staff intranet**.
