

INSTALLING THE ANTI-VIRUS AND ANTI-SPYWARE SOFTWARE

INTRODUCTION

McAfee Endpoint Threat Protection delivers integrated threat prevention, including Anti-Virus software. It's free to Edinburgh Napier University staff and students.

Before you install the software you should be aware of the following:

- You install this product at your own risk. Information Services take no responsibility for any loss or damage caused to your data or home PC by installing this software.
- Information Services are unable to provide support for this product on your home equipment.
- You must not allow anyone else apart from Edinburgh Napier University staff and students to access the software.
- You must completely remove the product from your home PC if you cease to be an Edinburgh Napier University student or employee.

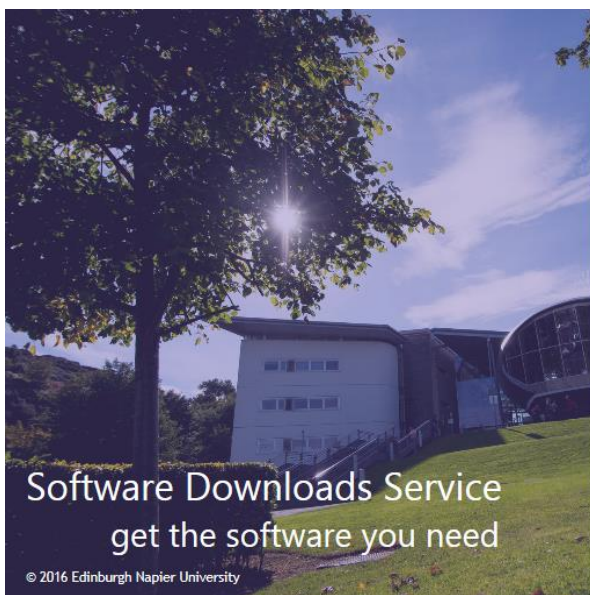

INSTALLING THE SOFTWARE

You **must uninstall** any other virus scanners (including previous versions of McAfee) before you install this software:

- On Windows 10 you would go to: **Start > Settings > System > Apps & Features** > click on any existing **virus scanners** (e.g. McAfee Virus Scan Enterprise) and click **Uninstall**.

To **install the Anti-Virus software and Anti-Spyware software**:

1. Go to the **Software Download Service**: <http://softwaredownloads.napier.ac.uk/> and **log in** using your University login and password:

Sign in with your University login and password

LOGIN

User Name

PASSWORD

Credentials

Sign in

The Software Download system will open:

[Redacted], Welcome to the Software Download Service!

You can download a range of **free software** provided by the University however before you start, you must read the [Software Loan Agreement](#) and check the box to confirm that you have done so:

- **Guidance** for installing the software (where available) can be found in the Description field.
- Information Services **cannot guarantee that all software will be compatible** with your own equipment and the installation of any software made available to you by the University is carried out at your own risk.
- Information Services **cannot take responsibility for any loss or damage** caused by the reconfiguration of your equipment.

In order to enable the download link you must confirm that you agree to the [Software Loan Agreement](#).

Search

2. Before you download the software you must **read the Software Loan Agreement** and **check the box** to confirm that you have done so:

In order to enable the download link you must confirm that you agree to the [Software Loan Agreement](#).

3. Click on the **Download** link to download the software:

McAfee Endpoint Security (Anti-Virus Software)

McAfee Endpoint Security (including Anti-Virus Software) stand-alone install

Windows 223.92 Mb

Download

Will upgrade previous versions

Suitable for Windows 10
