Approved by Academic Board 12 June 2015

Amended July 2019 – ‘The Committee should be clerked by and draw on the expertise of a member of staff from the Student and Academic Services Department' changed to ‘The Committee should be clerked by and draw on the expertise of the University’s Appeals, Complaints & Conduct Officer or designated colleague’.

**Purpose:** To ensure that applicants meet the defined Nursing Midwifery Council (NMC) requirements for entry to and continued maintenance on any approved programme leading to registration by considering any health or character issues and whether the person has the capability for safe and effective practice without supervision thus ensuring public protection is maintained.

**Remit**

1. To ensure that students self-declare their ‘fitness to practise’ on application, at the end of each academic stage, for entry to the register, on re-registration and when returning to the register.

2. To ensure that students, on application for first entry to a part of the register, or when returning to the register, provide a supporting declaration from Edinburgh Napier University.

3. To ensure that staff from both academic and practice learning are aware of their responsibilities and the implications of the Disability Discrimination and Data Protection Acts.

4. To ensure that the NMC registration process operated by the University is fair and does not discriminate against disabled people, while at the same time safeguards the health and wellbeing of persons using or needing the services of nurses, midwives or specialist community public health nurses.

5. To consider a person’s character to ensure that it is sufficiently good for them to be capable of safe and effective practice without supervision. For this purpose, good character is based on a person’s conduct, behaviour and attitude, as well as any conviction and cautions that are not considered compatible with professional registration and that might bring the profession into disrepute.

6. To consider all applicants as individuals and assess each of them to decide what the effect a conviction or caution might have on the person’s ability to meet the NMC requirements for entry to a programme leading to registration. If an applicant has a conviction or caution, the relevance, seriousness and circumstances in which the offence was committed must be taken into account.

7. To consider a person’s health at pre-admission and while the student is on the
